VITHUSHAN E.T.L.

Computer Engineering Undergraduate

vithustennysan20@gmail.com | +94 0760832397 | 24/1 Kandy Road, Ariyalai, Jaffna.

ABOUT ME

I am a dedicated and enthusiastic computer engineering student with a strong foundation in software development and a keen interest in web technologies. Through my academic journey and personal projects, I have developed a solid understanding of web development, including front-end and back-end technologies. My hands-on experience includes building responsive and dynamic web applications, focusing on creating seamless user experiences and optimizing performance.

EDUCATION

Jaffna Central College   *2007-2020*
- Grade 1 - Advanced level

University Of Peradeniya   *2022-2026*
- Computer Engineering

- The Leave Management System (LMS) is designed to streamline and automate the leave application and approval process for university staff. It is an real time project.

DEAR Website
- Data Engineering And Reseach group website for those who wanted to volunteer the exited projects that is going on University of Peradeniya.

TikTakToe Game
- It is developed using the Python language and Arduino Uno. The game will display its result. It features multiplayer mode and single-player vs computer mode.

TECHNOLOGIES

- Python
- Java
- C
- Javascript
- React
- Wordpress
- MySql
- Arduino
- Springboot
- Git

SKILS

- Problem Solving
- Web Design
- FrontEnd Development
- BackEnd Development

ONLINE COURSES

- Web Development - University of Moratuwa
- Python - Hackerrank, Coursera
- Sql - SoloLearn
